Matt,  
Are we going to have this on the agenda to discuss?

Wil

A resident view of Templeton finance.

Went back thru expenditure reports, until the report of May 31,, 2020, the account listed on report of 1000-951-900-53-5341-0000, this fund showed a balance (allocated) of \$3,500.00 (May BvA was sent out on

6/10/2020) Then the Jun 30, 2020 (sent out on 8/3/2020) the balance suddenly jumps to \$7,465.00, without explanation.

Article 30 of ATM, May 19, 2018 (for FY2019 had 4 items; infield groomer - \$10,000.00, cemetery garage roof - \$10,000.00, fire training A/C - \$3,500.00, fire chief vehicle - \$35,000.00.

According to BvA of ending May, 2019, the cemetery roof was complete at a cost of \$8,230.00, fire chief vehicle at a cost of \$35,000.00, infield groomer (so called) at a cost of \$4,343.67 (and counting).

An explanation is due taxpayers where did the additional \$3,965.00 come from??

Note: Infield groomer showed on end of year BvA, (6/30/2019, sent out 8/15/2019) 10K allocated with \$5,104.60 now spent with \$4,895.40 left. Expenditure report sent out on 9/11/2019 shows infield groomer allocated as \$4,895.40 and same remaining. BvA for 12/2020 (sent out 1/13/2020 shows additional \$929.51 spent on infield groomer. (remember that figure) BvA for May 2020 shows same figures as 12/2020 BvA. BvA dated June 30, 2020 (sent on 8/3/2020 shows infield groomer allocated at \$929.51 with 929.51 spent. (I love when a plan comes together. There is math, there is common core math and then there is Templeton math, try to keep up.

New members of advisory, one small update on finance. Enjoy the read.

regards,

Jeff Bennett
